

Center Staff

The permanent staff of the Center is composed of all mental health disciplines, auxiliary professions, administrative and support personnel, and number approximately 400, including 30 psychologists. The supervision faculty for the psychology internship program is comprised of qualified, licensed psychologists, as well as other licensed mental health professionals who have particular expertise in the modalities and populations under supervision.

The Senior Management Team of the Center is integral to the implementation of this and other training programs. The following individuals hold especially pivotal roles owing to their interests, particular expertise, and the relevance of their administrative functions to the service and training activities of Child and Family Guidance Center.
